★ AIP SPECIAL PROGRAMS ★

Biology Research Internship Program (BISP 197)

Biology course offered in 2 and 4 units. Students can complete internships with organizations such as Scripps Research, Sanford Burnham Medical Discovery Institute, and Salk Institute to gain experience in biology research.

Examples of previous research topics include cancer treatments, addiction, neurobiology and disease interventions.

UCCS

Hands-on exposure to public policy and civic engagement through internships and courses in Sacramento, CA.

Internship placement in:

- Business
- Environment
- Immigration
- Government
- Education
- Health Care
- Intl. Affairs

...and more!

UCDC

Live, learn, and intern in the vibrant city of Washington, DC just a few blocks away from the White House.

Open to all majors, DC hosts extraordinary internship opportunities in every field.

Build a professional network, jump-start your career, and make memories of a lifetime!
